

People Make Lean Work

Management and Leadership Development for Manufacturing

Our programmes have specifically been designed to meet the challenge of sustaining lean Improvements and supporting change by developing your leaders and managers in:

- Leadership and Management skills
- Workforce engagement
- Managing Change
- Managing Performance

We are now offering two new programmes leading to National Vocational Qualifications specifically designed for the manufacturing sector.

Our programmes will be delivered locally with your managers and team leaders joining classes with other companies in the North East.

ILM Level 2 in Team Leading

Who is it for?

This qualification has been specially designed for team leaders that are looking to motivate their team members and achieve agreed outputs, and to achieve continuous improvements with their team. The qualification aims to give participants an opportunity to develop the core skills needed by today's team leaders including units, health and safety, developing working relationships and leadership and communication.

What's involved?

- Initial Assessment and Personal Development Planning
- 3 and half days of practical and interactive workshops to improve people and performance management in your company
- Workplace Improvement Project - real bottom line improvements for your business
- 1:1 Coaching Sessions with our management coaches
- NVQ assessment

ILM Level 3 in Management

Who is it for?

This programme has been specially designed for first line managers with responsibility for; managing budgets, allocating work to team members/colleagues/contractors, achieving specific results and for some decision making, and implementing improvements

What is involved?

- Initial Assessment and Personal Development Planning
- 5 days of practical and interactive workshops on a range of management and leadership topics
- Workplace Improvement Project - real bottom line improvements for your business
- 1:1 Coaching Sessions with our management coaches
